"I have neither given nor received unauthorized assistance on this assignment. I have not copied any part of this submission from unauthorized resources".

For this assignment, you will complete more parts of project 2. You can work on any part of project 2 you wish but to get credit for this assignment, you need to complete the steps below.

Fill the below table with what you expect to get for each part:

Item	Full points	Expected points
In the game, show the enemy (circle, square, etc.)	5	
In the game, show that the enemy has their health printed in a circle in the top right of the screen, inside the edge margin.	5	
In the game, when the player's bullet hits the enemy, the enemy's health is decreased	15	
In the game, show that the enemy can fire bullets at the player in at least two different patterns. **Cycle two different bullet patterns.** (Implementing only one bullet pattern will result 20 points)	50	
In the game, when the enemy's bullet hits the enemy, the player's health is decreased.	15	
In the game, the time elapsed from the start of the game is displayed in the top left of the screen. **You should not use system time for this.**	10	

When you are ready to submit your HW10, commit your work to GitHub with a meaningful message such as "My HW10 submission". Take a screenshot of your GitHub submission on the GitHub website highlighting your GitHub ID and your submission message. See the below example**. Replace the below image with your own screenshot from GitHub site.**

Submit the updated version of this document to Canvas by the deadline for HW10.
